Le tout est plus que la somme des éléments qui le composent

Gestalt : Perception des plans

Nous identifions inconsciemment ce qui fait le premier plan et l'arrière plan

Gestalt : Premier plan / Arrière plan

Gestalt : Fermeture

Nous identifions un tout à partir d'éléments disparates.

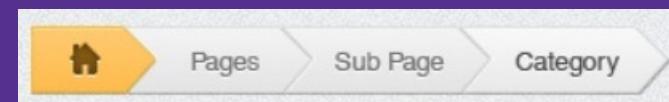

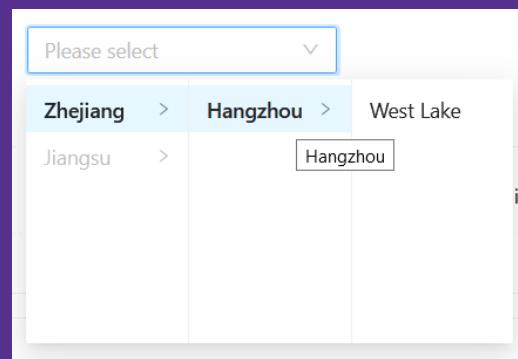

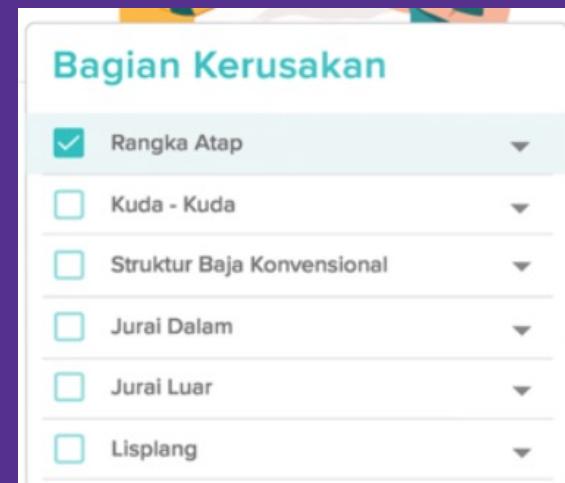

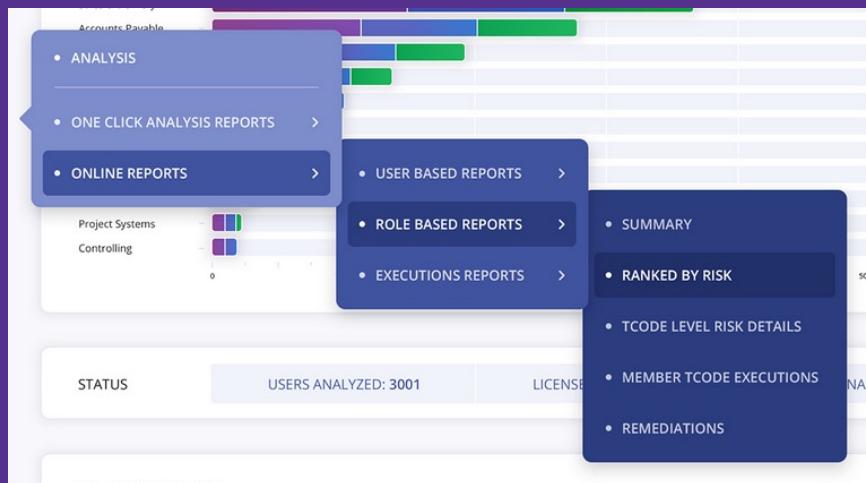

Gestalt : Fermeture

Gestalt : Destin commun

Les éléments orientés dans le même sens semblent liés les uns aux autres.

Gestalt : Continuation

Les éléments placés sur une ligne ou une courbe semblent liés les uns aux autres.

The image displays three examples of the Gestalt principle of Continuation:

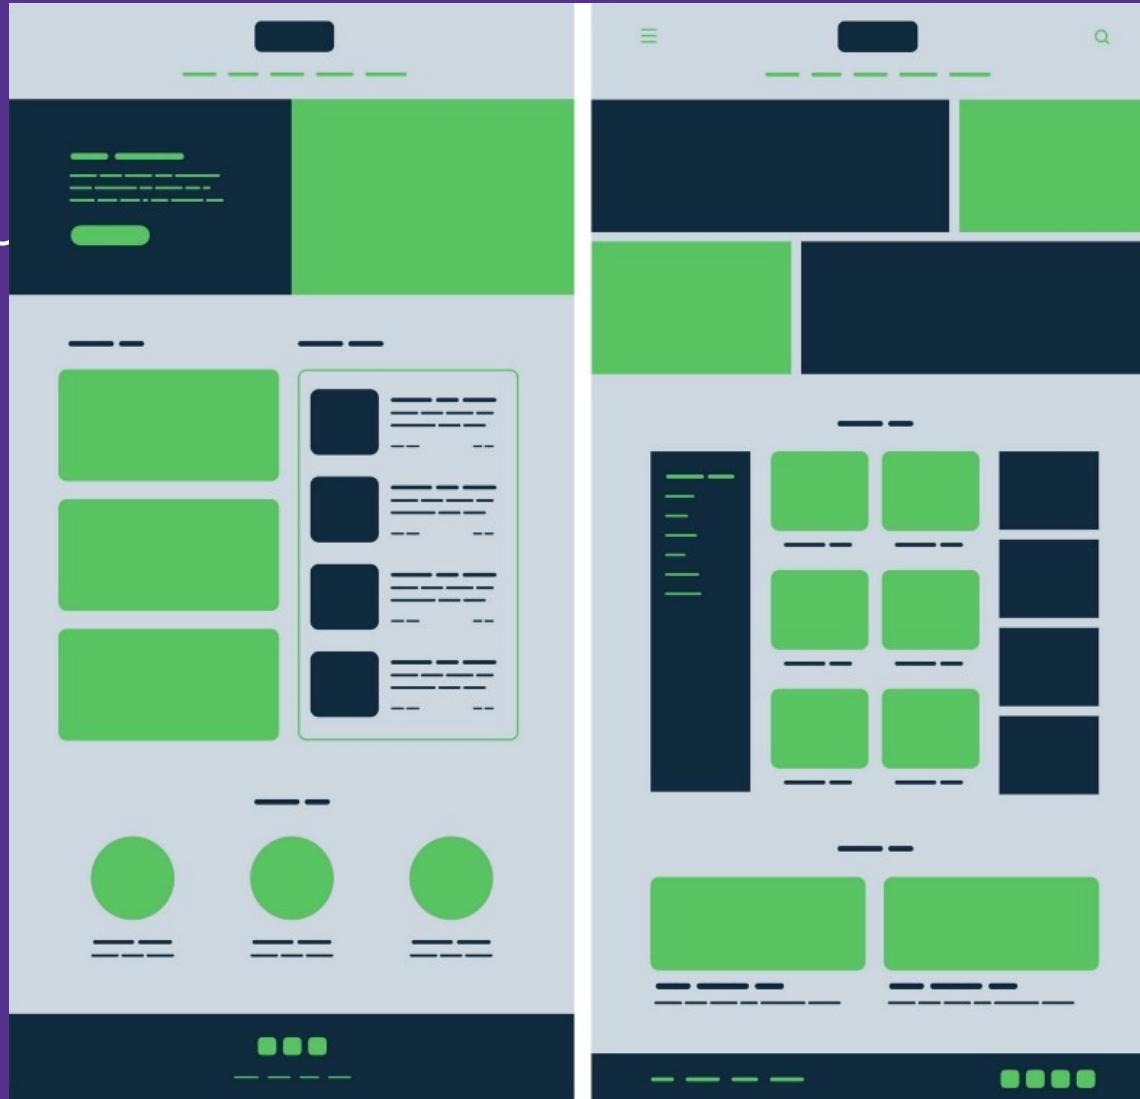

- Left Example (UI Interface):** A screenshot of a software interface showing a navigation bar with three items: "STOCK" (with a house icon), "TRANSFERT" (with a cart icon), and "PRODUIT" (with a bottle icon). Below this, there are two tabs labeled "Tab 1" and "Tab 2". The "Tab 1" tab is active, indicated by a blue underline. This illustrates how elements aligned along a horizontal line (the tabs) are perceived as related.
- Middle Example (Product Listing):** A screenshot of an e-commerce product listing page. It shows four items arranged horizontally:
 - A pile of clear plastic balls.
 - Two white rubber dog toys.
 - A set of colorful plush dog toys shaped like a banana, strawberry, purple eggplant, and a mushroom.
 - A set of four small latex animal toys (bear, rabbit, pig, and green animal).Each item has a small image, a title, a price, and a star rating. This illustrates how elements aligned along a horizontal line (the toys) are perceived as related.
- Right Example (Shopping Cart):** A screenshot of a shopping cart interface showing five items:

<input checked="" type="checkbox"/>	AVENE CICALFATE 60ML 4 Unités - R020 → V02
<input checked="" type="checkbox"/>	AVENE SOLAIRE 30 6 Unités - R020 → V05
<input checked="" type="checkbox"/>	AVENE SOLAIRE 50 6 Unités - R020 → V05
<input checked="" type="checkbox"/>	LA ROCHE POSAY SOLAIRE 20 3 Unités - R032 → V02
<input checked="" type="checkbox"/>	LA ROCHE POSAY SOLAIRE 30 6 Unités - R032 → V02

Each row contains a checkbox, the product name, quantity, reference number, and a small red icon. This illustrates how elements aligned along a vertical line (the rows) are perceived as related.

Comment va se dérouler le second procès en destitution de Donald Trump qui commence mardi

Les discussions au Sénat débuteront par un débat sur la constitutionnalité même de ce procès, alors que Donald Trump a déjà quitté la Maison Blanche.

Le second procès en destitution de Donald Trump promet d'être expéditif. Il pourrait, en effet, être conduit en l'espace d'une seule semaine selon l'accord auquel sont parvenus, comme c'est la pratique, le chef de la majorité démocrate, Chuck Schumer (Etat de New York) et le responsable de la minorité républicaine, Mitch McConnell (Kentucky).
